

Noah's Ark

Art and Drama Collaboration with Lucy and Samantha

Every Monday during the month of June, Lucy and Samantha from the UK ran art and drama workshops, resulting in a final production of Noah's Ark, which was shown to the whole school in a morning assembly.

21 students from Class 7A and 7B were chosen at random to take part in this exciting activity. During art workshops the children decorated and designed colorful fish and sea creatures to become part of the sea prop. They also were able to decorate their own animal masks, which after the performance, they have taken to their homes. The children had so much fun, they didn't want to leave the workshop.

This class is beautiful! "This is the first time a lot of these children have been able to engage in a project like this.

The drama workshops taught them the discipline of acting, whilst giving them a chance to express themselves through movement. The students learnt a lot in these few workshops and it really did show.

On Monday 3rd of July, the children prepared themselves on the stage. The whole school was watching. The children remembered all of their parts and the timing. They acted professionally. For some of these children it was the first time they have been on the stage. Which is a huge achievement, with a massive boost to their self-confidence.

So thanks to the Monkeys, Birds, Tigers, Fish, Elephants, and to Noah and his Family
